

Edward Atherton

What is important to me when I am at work:

Coffee – strong, only a bit of milk.

Being happy and getting the job done well.

Life's too short to worry, so let's get problems sorted and out of the way!

Treat me how you wish to be treated.

Don't panic!

How best to support me when I am at work:

Show me, don't just tell me about it.

Explain to me *why* things need to be done in a certain way.

Tell me if I'm doing something wrong – I'd rather know about it before it becomes an issue!

What People Like and Admire About Me:

Willing to help out doing whatever needs doing.

Hands-on approach.

How I implement Future Directions mission and values in my daily work:

Being reliable, honest, and doing that bit extra to get the job done more efficiently.
